Diversity, Equity, & Inclusion Are At Our Forefront

To our Tech Away customers:

We believe that each and every individual should have access to the cutting-edge technology necessary to thrive in our ever changing world. Tech Away holds equity at the forefront of our values. We strongly believe that each and every individual should have the ability to design and create a custom laptop that works for them. To combat the challenges that you may face, we provide affordable options for our technology that fits anyone's budget.

Equity is not the only JEDI value we hold here at Tech Away. Diversity and Inclusion are very important to us as well, and that is why we have recently chosen to include a mandatory diversity training program for all of our employees. This program will address things like race, color, ethnicity, language, nationality, sexual orientation, religion, gender, socio-economic status, age, and physical and mental ability. Our goal is to expose all of our employees to a wide range of diversity topics for the betterment of our employees and company as a whole.

Our co-founder and partner, Nicholas Milich is thrilled about our new diversity and Inclusion Initiative. "I'm so proud of the work we've done and the work we have planned for the upcoming future. Tech Away so strongly values all aspects of diversity in our workplace", said Milich.

I cannot wait for the start of this new diversity and Inclusion program we've chosen to provide our employees with", said our managing director, Eleonora Fallabrino. "To be part of an organization that upholds the importance of diversity and inclusion means everything to me."

Our chief business analyst, Mikaela Olmsted, is "overwhelmingly excited to dive into this program for the advancement of our employees. It's certainly an honor to be part of a team that's so inclusive, welcoming, and set on providing a safe and diverse environment for all employees."

To our cherished customers, embrace diversity, think equitably, and do not stop working toward a more inclusive tomorrow.
